Editorial Index

Vol. 11
March 1975—Dec. 1975

Titles

Analytical Studies on the Solidification of Hypereutectic Cast Iron in Metallic Molds: M. N. Srinivasan . . . India, Sept. p 91-99

An Investigation of the Enhancement of Drying of Ceramic Shell Molds by an Electrostatic Field: J. D. Jackson, P. N. Atanmo, T. S. Piwonka . . . United States, March p 1-3

Complex Intensification and Control of Processes in the Foundry Mold: A. S. Chintschin . . . Russia, March p 11-16

The Crack Deformation Diagram for Resin-Coated Sands: D. Boenisch, H. Berndt . . . W. Germany, June p 61-67

The Effect of Annealing Cycles on the Graphitization of White Cast Iron: T. Ohide, G. Ohira . . . Japan, Sept. p 69-76

Feeding Range Determination by Numercially Computed Heat Distribution: V. de L. Davies . . . Norway, June p 33-44

Influence of Hygrometric Conditions on the Mechanical Strength of Cold-Setting Synthetic Resin Bonded Mold Materials: D. Boenisch, R. Mollenkott . . . W. Germany, March p 17-20

The Influence of Tin Content and Cooling Rate on the Formation of Ferrite in Cast Iron: R. W. Lindsay, B. L. Tuttle . . . United States, Dec. p 109-112

Kinetics of the Ferritization of Forged Spheroidal Graphite Cast Iron: T. Owadano, T. Nishimura . . . Japan, Dec. p 118-122

Mechanism of Crack Initiation in As-Cast Ductile Iron: J. O. T. Adewara, C. R. Loper, Jr. . . . Nigeria and United States, Dec. p 104-108

On the Nucleation and Early Stages of Growth of Graphite During First Stage Graphitization: S. V. Bhide, S. Banerjee . . . India, March p 4-10

On the Relationship Between Sulfur Pick-up in Molten Cast Iron and Cupola Operating Conditions: K. Abe . . . Japan, Dec. p 123-128

Potential Applications of Cooling Curves in Ductile Iron Process Control: M. D. Chaudhari, R. W. Heine, C. R. Loper, Jr. . . . United States, Sept. p 77-84

Prediction of Casting Solidification Times in Coated Metallic Molds: K. V. K. Nehru, M. R. Seshadri, E. G. Ramachandran . . . India, Dec. p 113-117

Principles Involved in the Use of Cooling Curves in Ductile Iron Process Control: M. D. Chaudhari, R. W. Heine, C. R. Loper, Jr. . . . United States, June p 52-60

Principles of Grain Refining of Cast Structures: A. Ohno, T. Motegi . . . Japan, June p 45-51

Progress in Solidification of Gray Cast Iron: H. Nieswaag, A. J. Zuithoff . . . Netherlands, Sept. p 85-90

Strength Factors of Ceramic Shell Molds: Part II: R. L. Rusher, Sr. . . . United States, March p 21-26

Authors

Abe, K.: On the Relationship Between Sulfur Pick-up in Molten Cast Iron and Cupola Operating Conditions, Dec. p 123-128

Adewara, J. O. T.; Loper, C. R. Jr: Mechanism of Crack Initiation in As-Cast Ductile Iron, Dec. p 104-108
